SATURDAY SUMMARY.

That was a warm session the zoning committee had, and Dr. Aronovitch had to finally tell 'em that he was no expert on zoning dumps, but that the best place for such things was on the bay shore on marsh land that could be filled in and then covered with dirt and used for industrial sites. The Council ought to know that, as Alameda and other bay towns have demonstrated it long ago. As we happen to live in the San Pablo end of Richmond we most strenuously object, and with both feet, to having any city garbage dumps out there that vicinity, and all the other people out there do, also, and they have a right to, having builded for themselves, as we have, beautiful and permanent homes that should not be defiled by the rank odor of rotting garbage and filth. The people of that vicinity are up in arms about it, and the first garbage that is dumped out there the driver of the wagon will do well to wear a boiler-iron overcoat and carry a machine gun. Garbage is a disagreeable necessity that has to be faced, and it should be faced intelligently. It is going to accumulate no matter how the city is zoned, or whether it is zoned at all or not. Many cities on an ocean shore carry their garbage far out to sea on barges and dump it in the ocean.

Glad to note that the school children are to have adequate playgrounds out at the Peres school, for that is the last the city and the people can do along that line. That Richmond has no public park is a sad commentary upon former administrations, especially those in earlier days when the land could have been picked up for a song. Now to get a nice park we have got to pay big prices, and the condition as far as that is concerned is going to continue to get worse instead of better. We should like to see the city purchase the 20-acre Dooling tract, adjoining the Princeton Kaitling Mills. That is probably the best and cheapest site that will be offered, now or in the future, and while there are no improvements upon it, the planting of lawns, trees and flowers is comparatively an easy and inexpensive job, and in three years time such a park would be a beauty spot that everybody would be proud of and delighted with. The only places for anybody to sit down now is on the sidewalks curbs, and that impedes traffic and musses up one's clothes. Some of those city councils of the early days had heads just like carpet sacks.

We notice that the first comers of the season are camping in the municipal camp ground, and wish to suggest that a lot of pretty flowering plants be planted all around that camp ground, to make it an attractive beauty spot as well as a bleak place to hibernate for a day or two. Plenty of our people will donate plants to be set out around the enclosure at 23rd and Macdonald, and probably the work of doing it might be donated, also. Hardy plants, like geraniums, and marigolds, and cosmos would be just the thing. Bloom profusely grow very rapidly and make that corner worth looking at. Come on, folks! Let's do that! Mayor Gerrard, set aside a day for the purpose, and ask each to come and plant one flowering plant! Why not? Let's have a heart, as well as a dispirited much gizzard! The tourist season is now opening, and there will be a constant stream of them coming and going from now on until Christmas. The question as to whether such city camp grounds pay or not has been answered by many cities who have kept tabs on them. They certainly do pay, for thousands of travelers and tourists stop at them continually, from a day to a week at a time, and they spend a lot of money in the towns where they pause, taken in the aggregate. The business men of the town reap quite a harvest from these guests, for they all buy food, clothing, gasoline, fruit, candies, tobacco, magazines and many other articles in endless variety, and it amounts to thousands of dollars in a season. And besides, they go away with a kind word to say to others about Richmond.

Three federal prohibition agents were shot

and \$30,000 worth of Scotch whisky was seized at our neighboring town of Pittsburg a few days ago, the federal authorities being aided by the Sheriff's office. The man who did the shooting is under arrest. Pittsburg is made up largely of foreigners and bootlegging is a staple industry there. One by one, however, these law-breakers and outlaws will be rounded up and put out of business. That is the way it happened in Maine, Iowa and Kansas, long before the national law came into effect, and that is the way it will work out eventually all over the nation. Those who fight it are merely hastening their own funerals.

The many dwellers on the San Pablo Villa tract, where sewerage and paved streets about to be put in, including this 2x4 ranch hick, are considerably worked up over the fact that the City Council made a contract for the street work at a figure over \$8,000 in excess of what was estimated to be a fair cost by experts hired by the residents of the tract, and over \$4,000 more than the estimate of the City Engineer. The Council is not to blame, as it simply accepted the lowest bid, but there is a nigger in the fence somewhere in all this street paving business, and the San Pablo villans are going to smoke him out if they can. It is stated by those who claim to know that the cement trust has nearly all of the street contractors in its power, in that it finances them on their contracts; that because of this the contractors are charged two prices for their cement and therefore have to charge exorbitant prices for their street paving. We do not know whether this is true or not, but we do know that the costs of paving streets is altogether too high, and everybody else knows it. This is also true in all road building. Take the California State highways, for instance. Do you know how much money the taxpayers of this state have handed over to the officials to build roads with in the past ten years? Well, it is EIGHTY MILLION DOLLARS! How much of that has gone into road construction, and how much of it has been played horse with? We have quite a few good roads scattered around over the state but can you see any EIGHTY MILLION DOLLARS in them? We certainly cannot, and have been doing a lot of travelling over them in the past two years. We do not claim to be an expert at such things, and in fact know very little about it but it does not take an expert to know that \$80,000,000 would build a fairly good road from here to New York. Why is it that when the public has to foot the bill, in the way of taxation, that the cost of doing anything, no matter what it is, is always double what it would be if an individual got it done? It is considered no wrong to rob the public, are our officials dishonest or incompetent, or are we all a lot of mutts who don't know how to conduct our own business affairs? Frankly, we do not know which—maybe it is a little of all three.

Red Bluff, Nevada City, Placerville and all the mountain district up that way got two feet of fresh snow a few days ago, with frost following it, and the foothill fruit farms may suffer some loss because of it. We were going to leave Monday morning for the mines in Sierra county, but have postponed it a week so the roads will be better and so the new house we are building there will be sufficiently up to afford shelter from the cold night. Messrs. Rush and Whitney, of Richmond, went up Wednesday to help Superintendent Weldon on the building and the next time they show up in Richmond they will be strong and hearty, and have appetites like bears. The mine is showing up good now and a lot of us around town are already figuring out how we will spend the money when we get it. Several of the single men who are interested are beginning to shine up to the girls, no doubt having matrimony in view. Man always was a venturesome critter.

While union and non-union men keep right on killing each other in Chicago, and occasionally take a shot at one another in San Francisco, we of Richmond get along without any of that rough stuff, and manage to get along well pursuing the policy of live and let live.

Salts Is fine for Kidneys, Quit Meat

Flush the Kidneys at once when Back hurts or Bladder bothers—Meat forms uric acid.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally. Says a well known authority, Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders, come from sluggish kidneys.

The moment you feel a dull ache in the kidneys your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular, or assailed or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then get fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders. Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.—Adv.

Grandma Used Sage Tea to Darken Hair

She made up a mixture of Sage Tea and Sulphur to bring back color, gloss and youthfulness.

Common garden sage brewed in a heavy tea, with sulphur added will turn gray, streaked and faded hair beautifully dark and lustrous. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Unlike the Sage Tea and Sulphur recipe at home, though, is troublesome. An easy way is to get a bottle of Wyeth's Sage and Sulphur Compound at a drug store, all ready for use. This is the old-time recipe, enhanced by the addition of other ingredients. While wispy, gray hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening the hair with Wyeth's Sage and Sulphur Compound, no one can tell you it does so naturally, no effort, it just dampens a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray has been disappeared, and after one application or two your hair comes beautifully dark, glossy, and luxuriant.

First National As Agent For Training Camps

The First National Bank of Richmond has been requested to act as an agency to receive applications for entrance to the Citizens' Military Training Camp this summer.

The Government desires that citizens between the ages of 17 and 25 years, of all classes and conditions of society enroll, but it is expected that the larger portion of applicants will be youths from 17 to 21 years. All expenses, including transportation are paid by the Government, and it is intended to return the student to his home with an increased chest measurement, pounds added or taken off, as may be required, an erect, soldierly bearing and a general improvement as regards mental alertness, conception of the duties of citizenship and general morale.

Richmond is situated within the Ninth Corps Area, which comprises the States of California, Oregon, Washington, Idaho, Wyoming, Montana, Nevada, and Utah, and camps in this area will be held from July 6th to August 6th, this year.

The opportunity for the young men of California to attend the Citizens' Military Training Camp at the Presidio of San Francisco has been well set forth, nevertheless, the total number of applications received to date indicate a widely spread distribution as to residence, but so far no county has approximated its quota.

But one thousand young men may attend the camp. Early application is important in order that the young men applying may not lose the opportunity by the late arrival of this request.

The young men will be quartered in barracks; the camp is absolutely free as regards uniform, laundry, meals, amusements, medical service and medicines and travel expenses. There is absolutely no obligation for future military service.

The age limits are from 17 to 27, except that veterans of the World War are admissible up to 35.

It is the sincere desire of the War Department that every section of the state have at least one representative at this camp. Only young men of high moral standing and character are desired. The young man's time will not all be taken up in work, but abundant, interesting and wholesome amusements, including athletics, will be provided. One special feature of last year's camp, which will undoubtedly be repeated in this camp, was a military Hop in the Officers' Club.

"Ruddygore" Is Gilvan Opera Treat

Delightful Gilbert & Sullivan Comic Opera to Be Given at Chautauqua on Closing Night. Company Is Quintet of Brilliant Eastern Artists. Operatic Gems Also Featured

"Ruddygore" means just what it says—but there isn't half as much blood and thunder in this delightful opera as one might imagine. In fact, it's a typical Gilbert and Sullivan opera, and there are more laughs than anything else in it—so you will quickly learn when the Gilvan Light Opera Company comes to Chautauqua. There are five brilliant artists in the Gilvan Company: Martha Cook, soprano; Hazel Huntley, contralto; Tom Morris, baritone; Thornley Jobe, tenor; and Harrison Burch, pianist and accompanist. The Gilvan Company was organized three years ago, on the belief that the public craved better things in a musical way. The organization has had remarkable success, and has lived up to its ideal of presenting the best—and only the best—in Chautauqua work. "Ruddygore" will be the evening feature. A miscellaneous program of standard musical numbers will be given in the afternoon. In the evening "Ruddygore" will be preceded by an offering of costumed classics—concert, oratorio and operatic arrangements for solos, duets, trios and quartets. A splendid artistic finesse characterizes the ensemble work of this remarkable company.

Salts In Hot Water Clears Pimply Skin

Says we must make kidneys clean the blood and pimples disappear

Pimples, sores and boils usually result from toxins, poisons and impurities which are generated in the bowels and then absorbed into the blood through the very ducts which should absorb only nourishment to sustain the body.

It is the function of the kidneys to filter impurities from the blood and cast them out in the form of urine, but in many instances the bowels create more toxins and impurities than the kidneys can eliminate, then the blood uses the skin pores as the next best means of getting rid of these impurities which often break out all over the skin in the form of pimples.

The surest way to clear the skin of these eruptions, says a authority, is to get from any pharmacy about four ounces of Jad Salts and take a tablespoonful in a glass of hot water each morning before breakfast for one week. This will prevent the formation of toxins in the bowels. It also stimulates the kidneys to normal activity, thus coaxing them to filter the blood of impurities and cleaning the skin of pimples.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia. Here you have a pleasant, effervescent drink which usually makes pimples disappear; cleanses the blood and is excellent for the kidneys as well.—Adv.

The Big Town Round Up

by William MacLeod Raine

CHAPTER III—On the first day in New York Lindsay is assailed with water by a sailor. That individual the range rider punishes summarily and leaves dead to a fire hydrant. A young woman who sees the occurrence takes her into her house and hides him from the police.

CHAPTER IV—Clay's "rescue" introduces her as Beatrice Whitford. Lindsay meets her father, Colin Whitford, and is invited to visit them again. He meets Kitty Mason by accident. She has been disappointed in her stage aspirations, and to support herself is selling in a cabaret.

CHAPTER V—Clay is taken by a customer. Lindsay punishes the amorous. After a mixup Lindsay escapes. Outside a and a com and beaten insensible.

CHAPTER VI—Lindsay's acquaintance with Beatrice Whitford. Through her is introduced into "society." Lindsay comes to the "big town."

CHAPTER VII—The two take an apartment. Lindsay secures employment as a waitress in a restaurant. An advertisement signed "Kitty M." conveys the information that she is in trouble and implores Lindsay to come to a certain house where she is imprisoned. Clay is dubious as to its authenticity, but finally decides to go. He makes his way into what he supposes is the right house and finds himself in a young woman's room.

CHAPTER VIII—Naturally the girl is puzzled when Clay tells her the reason for his momentary intrusion. She shows him how to enter the house. After a night in the place Clay comes out a party of "trappers," waiting for his appearance. Lindsay is on the ground on the things, looks them in the face, and escapes.

CHAPTER IX—With a theater party which includes the Whitfords, Lindsay meets Kitty Mason, friendless and penniless. Lindsay leaves her to take care of her apartment, there seemingly being no other place available. Lindsay is in need of immediate food and warmth.

CHAPTER X—Beatrice resents Lindsay's interest in Kitty. Though not admitting it even to herself, she is becoming attached to the Arizona, as he is to her. The two part in anger.

CHAPTER XI—Lindsay and indignant, Beatrice practically proposes marriage to an old admirer, James Bromfield. A wealthy man-about-town, and a member of the party which we met at the beginning of the story. Their engagement is announced. Lindsay's gang kidnaps Kitty. Clay appeals to the girl he had met the night he escaped the trap. Lindsay had set for him. She tells him where the girl is likely to be found.

CHAPTER XII—At the place, Clay conceals himself to await the arrival of Lindsay. She comes, and the girl is rescued. Lindsay is alone, and in a fit of rage she chases him, and in a fit of rage she chases him.

CHAPTER XIII—Kitty is rescued from her abductors by Johnnie Green, who has long admired her. Lindsay is the witness of his love and the wedding day is promptly set.

Tim Muldoon, in his shirt-sleeves, was busy over a late breakfast when his mother opened the door of the flat to let in Clay Lindsay.

The policeman took one look at the damaged face and forgot the plate of ham and eggs that had just been put before him.

"You've been at it again!" he cried, his Irish eyes lighting up with anticipatory enjoyment.

"I had a little set-to with friend Jerry last night," the westerner explained.

"Another? What's the trouble now?" "You heard about the Brown?"

"That's what I heard in that?" "He was. I'll tell you the whole story, Tim."

"Meet my mother first. Mother—Mr. Lindsay. You've heard me talk, eh?"

Mrs. Muldoon's blue Irish eyes twinkled. She was a plump and amiable woman, and her hands were firm and strong.

"I have that. Tim thinks you a wonder, Mr. Lindsay."

Clay told the story of his encounter with Lindsay on the train and of his subsequent meetings with him at the

"You see, Tim, I can see it in Your Eyes!" cried Muldoon, pointing the table so that the dishes jumped.

See Siren and on the night of the poker party. He made allusions and allusions that "moved the bedroom scene from the tale."

"So that's when you met Annie Muldoon, Tim said. 'I was wondering how you knew her.'"

"That's when I met her. She's one fine girl. Tim a sure-enough thoroughbred. She has fought against heavy odds all her life to keep good and honest."

Curwood Story Greeting One At Macdonald Theater

James Oliver Curwood, Jan of the Big Snows

James Oliver Curwood, who has written most of the big outdoor stories presented on the silver sheet, provides an intensely human drama of the Hudson Bay country in "Jan of the Big Snows" which will be shown at the Macdonald theatre for the past time tonight.

"Jan of the Big Snows" in its screen version was directed by Charles M. Seay, an able director of outdoor productions in the motion picture industry. It will be distributed throughout the world by the American Releasing Corporation.

For this story Mr. Curwood chose the Hudson Bay country as the locale with its "he-man" characters and the spirit, adventure, romance and thrills that are evident in that isolated land.

The story is replete with stirring situations and adventures, illustrating the successful manner in which seventeen trappers, the entire population of an isolated trading post, force an inviolent fur agent to observe their "honor of the big snows" with Nanney Cummings, the only woman living at the post and the beautiful bride of a fellow trapper.

Among these seventeen trappers is Jan, who had never known the thrill of a love affair until the day Nancy arrived at the post, and had lived in the belief that all women were alike—the kind chiefly found in the camp resorts. His secret love for Nancy forms the basis for Mr. Curwood's story.

Ingram Is Wonderful Artist

Noted Contralto of Metropolitan and Chicago Opera Fame to Sing at Chautauque

The announcement that Frances Ingram, famous American contralto, formerly with the Metropolitan Opera Company and the Chicago Opera Association, is to sing at Chautauque on the second night is creating no end of comment among those who appreciate the best in music. She is a star of the first magnitude. In addition to having a great natural voice which has already been termed by many competent critics to be the most genuine contralto of the decade, she has an extraordinary personality which combines to make her an artist whose name will go down in history as one of the adored of the musical world. She will appear in recital, assisted by the Stearns-Hellerson Trio, a company of brilliant assisting artists for the famous contralto. Miss Ingram's concert and operatic successes have been equally great.

Telegram Cause Of Needless Fear

"Run to the door, Emily, and see who's there. Mrs. Bradley said she might run over this afternoon."

"Oh, mother, it's a telegram. Open it quick. I'm so excited."

"Dear me! Now you've got me all upset. A telegram always gives me such a fright. Well! Well! Isn't that fine. It's from your father's sister, Alice, and she and her husband are coming to California for the summer. It says they will arrive here on Saturday. My goodness, Emily! Phone your father quick. We must get the house fixed up right away. And your aunt is quite a dresser. I ought to get me a nice new suit to wear when we go out with them."

"Oh, mother, get one of those attractive tricot suits with the long coats. You would look wonderful in a navy blue one and a black hat."

"Oh, those suits cost too much and I'm getting too stout for a suit like that. They're for young folks."

"Oh, mother, you do make me furious sometimes. Don't you know that those long lines are the thing for people like you. Make you look tall and dignified. And I saw just what you want at Cherry's, 515 13th street. And the best thing about Cherry's is that you can pay most anything down that's satisfactory and then make monthly payments for the rest. And while you are at it you may as well take over to the men's store at 523 13th street, and have him pick out a new suit and pay for it on easy terms. Advertisement."

ONE WEAK SPOT

Many Richmond People Have Weak Part and Too Often It's The Back. Many people have a weak spot. Too often it's a bad back. Twinges follow every slight twist. Dull aching keeps up, day and night. Backache is often from weak kidneys. In such a case kidney medicine is needed. Doan's Kidney Pills are for weak kidneys. For backache and urinary ills. Richmond people recommend the remedy. Ask your neighbor. Mrs. E. P. Howard, 575 N. Ninth St., Richmond, says: "I keep Doan's Kidney Pills on hand. I know the value of them. I have used them when my kidneys were weak. I felt dull and languid and had frequent headaches. My back ached and my kidneys didn't act right. I read of Doan's Kidney Pills and procured some at La Moine's Drug Store. They were just what I needed. They soon rid me of that tired feeling and strengthened my back and kidneys." Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Howard had. Foster-McBurn Co., Mfrs., Buffalo, N. Y.

Face, Neck and Arms Easily Made Smooth, Says Specialist

Any breaking out of the skin, even fiery, itching eczema, can be quickly overcome by applying a little Menthosulphur, declares a noted skin specialist. Because of its germ destroying properties, this sulphur preparation begins at once to soothe irritated skin and heal eruptions such as rash, pimples and ring worm.

It seldom fails to remove the torment and discomfort, and you do not have to wait for relief from embarrassment. Improvement quickly shows. Sufferers from skin trouble should obtain a small jar of Menthosulphur from any good druggist and use it like cold cream.

Jack Holt, Lila Lee in Strong Cast At T. & D. Theater

Appealing, dramatic and at times highly pathetic is the theme of William deMille's new Paramount picture production of "After the Show," which will be shown at the Richmond T. & D. theatre today. The story, written by Rita Weiman, deals with the stage, and Jack Holt, Lila Lee and Charles Ogles are the featured players. The scenario was written by Hazel MacDonald and Vienna Knowlton.

Eileen, a chorus girl, is the protégée of Pop, an aged stage door keeper who guards her jealously from the intrigues in which stage girls and wealthy bachelors large ly figure.

to the disadvantage of the former. When Eileen meets Larry Taylor, who wins her love, Pop is suspicious of the truth of Larry's sentiments towards his ward. When he finds her slipping out of his life, Pop resorts to a daring expedient which has a dramatic finale. But, happily, after a period of dark doubt, true love has its innings and all are rendered happy.
